### Important (see back of proposal form for more important information)

Insurers pass information to the Motor Insurance Anti-Fraud and Theft Register, run by the Association of British Insurers (ABI). The aim is to help us to check information provided and also to prevent fraudulent claims. When we deal with your request for insurance, we may search the register. Under the conditions of your policy, you must tell us about any incident (such as an accident or theft) which may or may not give rise to a claim. When you tell us about an incident, we will pass information relating to it to the registers. The information describing your insurance cover will be added to the Motor Insurance Database, run by the Motor Insurers' Information Centre. This has been set up to help identify drivers who do not have insurance. The Police may search the database to help confirm who is insured to drive. If there is an accident, we may also search the database to identify the insurers involved. You can ask us for more information about this. You should show this notice to anyone insured to drive the vehicle covered under the policy.

**NOTE:** as the Motor Insurance Database does not contain any personal data that can be recovered by insurers, customers are not required to give consent to their data being sent to the database. However, as a statutory instrument [1972 SI No 127] allows the police to recover personal data from the database, customers and drivers must be made aware of its existence, purpose and use.

### Procedure In The Event Of A Complaint
